

Sensory Safari

Mobile Education Unit

Sensory Safari Mobile Education Unit is a rewarding and moving program whereby children and adults everywhere, but especially individuals with visual impairment, are offered a unique opportunity to "see" wildlife through the sense of touch. This is done by utilizing donated animal mounts, skins, skulls, and horns. Our Chapter is fortunate to have a 28' enclosed trailer with a sensory safari display permanently on display.

70+ Display Items

Including: Full Size Mounts, Shoulder Mounts, Hides, Skins, and Skulls
Animals from: North America, South America, Africa, Asia, Europe, and Australia

Minimum Space Requirements: 45' Long x 10' Wide x 11' Tall
Electric: Not Required but very helpful.

Visit: www.southwestohiosci.org to book a Sensory Safari at your event
